My First Scissor Skills Book

Cutting Practice Workbook: Lines, Shapes and Pictures

Ages 4–5

How to Use This Book

1. Use child-safe scissors. A grown-up should stay close by.
2. Grown-ups: cut the page out first along the dashed line near the spine.
3. Start where you see the little scissors and cut along the thick dashed line.
4. The pages start easy and get harder, one level at a time. Go slowly and stop at every corner.
5. Each activity page has a blank back, so cutting one page never spoils the next.
6. You can color the shapes before you cut them out.
7. Keep the shapes you cut out and glue them onto paper to make a picture!

Levels in this book

Level 1: Straight Lines (4 pages)
Level 2: Zigzag, Wavy & Castle Lines (4 pages)
Level 3: Curvy Lines & Spirals (4 pages)
Level 4: Basic Shapes (4 pages)
